ABOUT ME

Dedicated Computer Science Engineering student at Srinix College of Engineering with a strong foundation in robotics, website development, and technical problem-solving. A proactive learner and team player committed to driving innovation and efficiency in automated systems. Seeking to contribute my technical expertise to the automation and software solutions at Traxo India.

EDUCATION

2021- 2023

Jawahar Navodaya Vidyalaya
Paschim Medinipur

11th & 12th

Background in Physics, Chemistry, Mathematics, and Biology (Class XII) provided a robust academic foundation. I possess strong quantitative and analytical skills, which I now apply to my computer science studies and technical projects.

2023 - 2027

Srinix College of
Engineering

Bachelor of technology [CSE]

Currently pursuing a degree in Computer Science Engineering at Srinix College of Engineering. I am actively developing my technical expertise through rigorous coursework, robotics projects, and participation in competitive technical events.

ACHIVEMENTS

secured 2nd position in IIT roorkee

In 2025, we participated in a robotics competition at IIT Roorkee and secured second position among tough competition.

secured 2nd position in BPUT TECH CARNIVAL

secured 2ND position in BPUT tech carnival in robotics competition [line follower].

SKILLS

Core Competencies

Website Development, Robotics,
Coding, Analytical Thinking and
Component handling

Soft Skills

Leadership, Teamwork, Communication,
Problem-Solving, Innovation, Collaboration.

EXPERIENCE

TECHTRONS Robotics Club | Technical Head & Coding Head

Lead technical operations,design head and software coding initiatives within the club.

Web Development

Applied development skills to create and maintain functional web interfaces.

projects I have worked on

I have worked on RC plain,drone,line follower,pick and place robot. While working on the project I had handled various components like aurdriano , sensors, & other components.
