INTRODUCTION

- Expense tracking is important in daily life
- Helps manage money efficiently
- Digital tools make it easier
- This is a frontend-based expense tracker that allows users to manage expenses with a simple interface and visualize data using charts.

PROBLEM STATEMENT

- People forget where money is spent
- Difficult to track daily expenses
- No proper visualization

OBJECTIVE

- Build a simple expense tracker
- Provide easy UI for users
- Show expenses visually

SOLUTION OVERVIEW

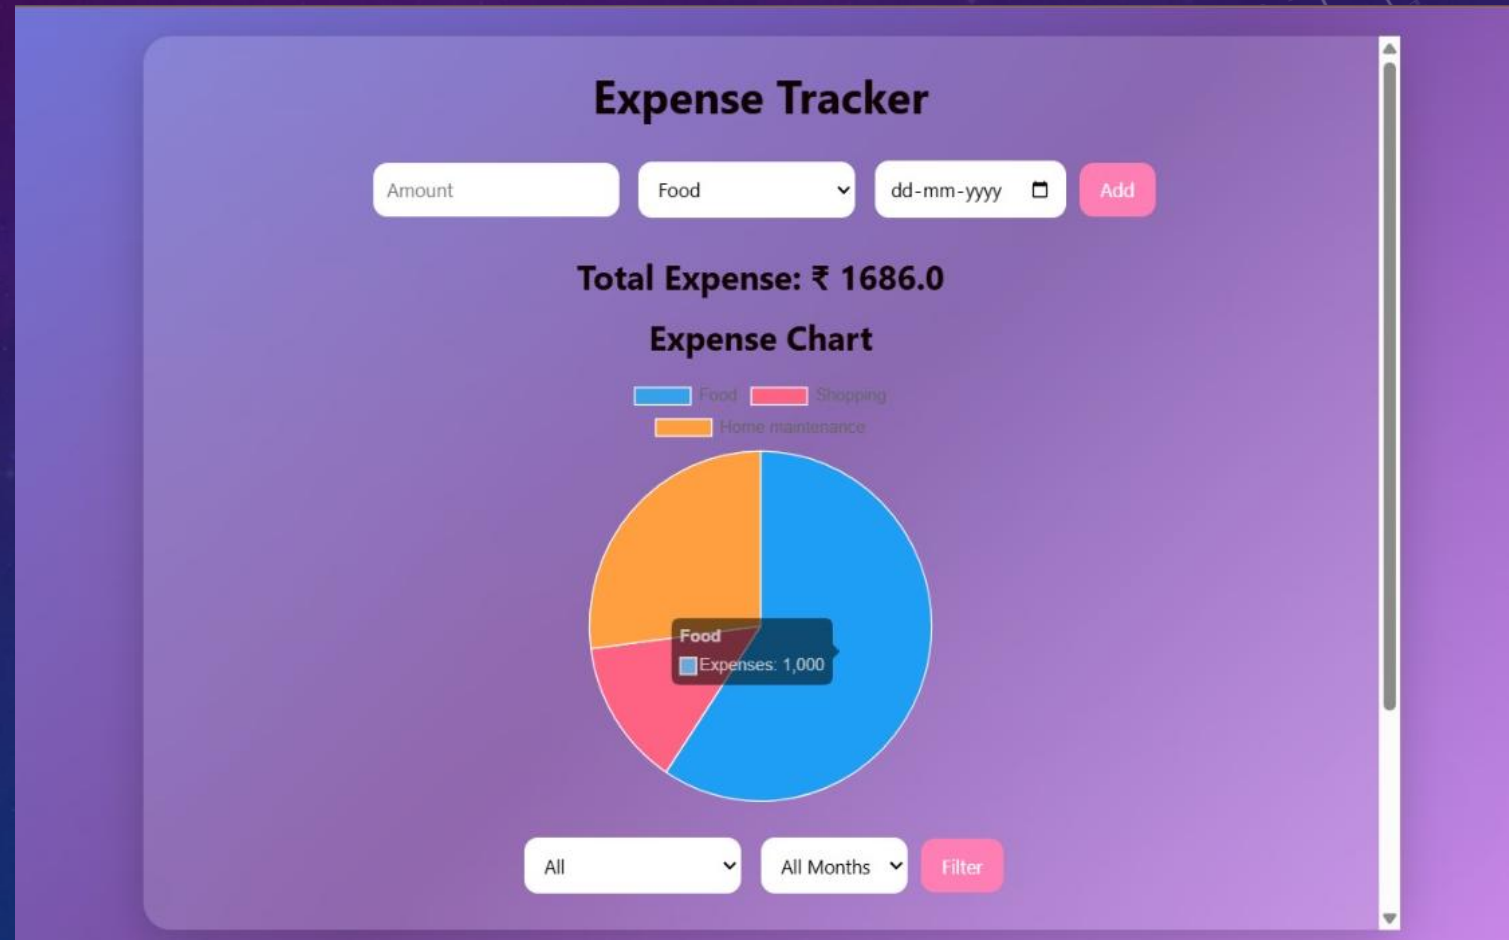

- A web-based expense tracker
- Simple input + display system
- Chart for visualization

TECHNOLOGIES USED

- HTML (Structure)
- CSS (Design)
- JavaScript (Logic)
- Chart.js (Charts)

USER INTERFACE OVERVIEW

- Clean layout
- Input form
- Table view
- Chart section

INPUT FORM

- Enter amount
- Select category
- Choose date
- Add

Expense Tracker

Total Expense: ₹ 1686.0

EXPENSE CATEGORIES

- Food
- Travel
- Shopping
- Bills
- Health
- Entertainment

Expense Tracker

Food

Food

Travel

Shopping

Home maintenance

Others

Bills

Health

Entertainment

Add

Total 686.0

EXPENSE TABLE

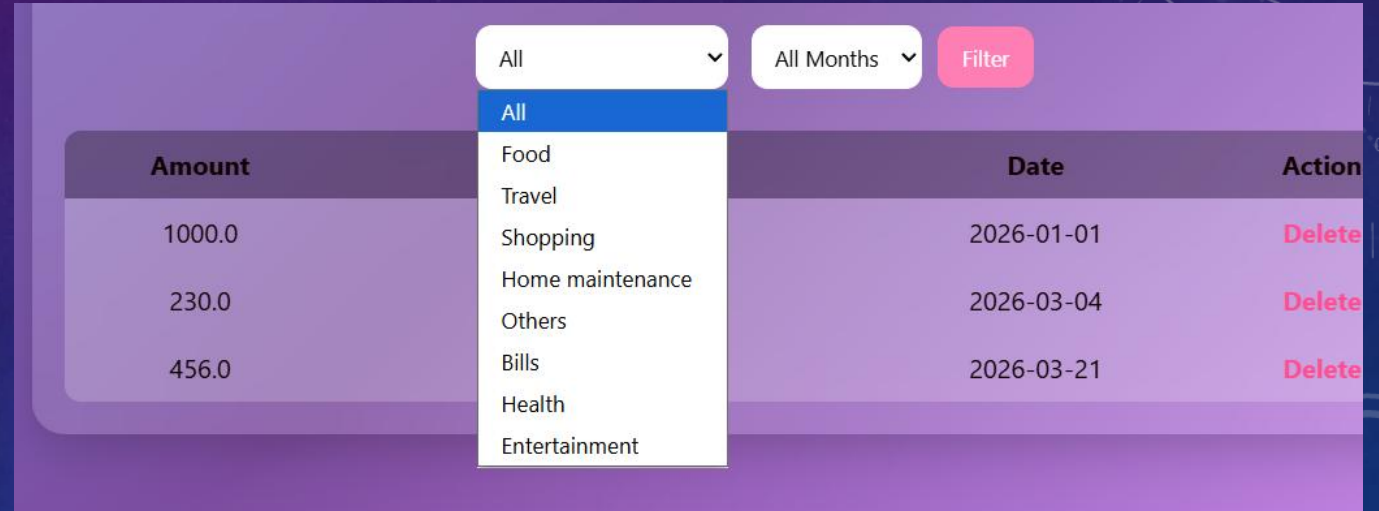

Amount	Category	Date	Action
1000.0	Food	2026-01-01	Delete
230.0	Shopping	2026-03-04	Delete
456.0	Home maintenance	2026-03-21	Delete

Displays all records Shows:

- Amount
- Category
- Date
- Delete option available

FILTERS

- Filter by category
- Filter by month
- Helps in better analysis

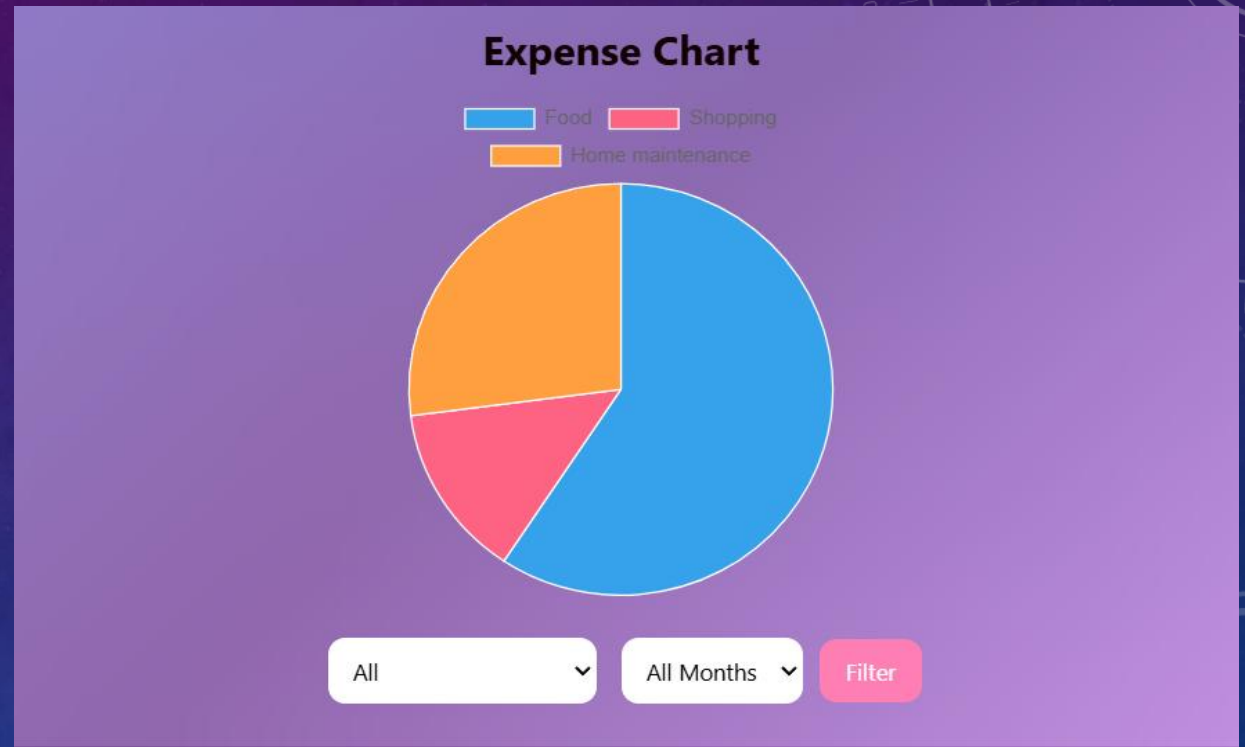

The image shows a UI mockup of a filter interface. At the top, there are two dropdown menus: 'All' and 'All Months', followed by a pink 'Filter' button. The 'All' dropdown menu is open, showing a list of categories: 'All' (highlighted in blue), 'Food', 'Travel', 'Shopping', 'Home maintenance', 'Others', 'Bills', 'Health', and 'Entertainment'. Below the filters is a table with three columns: 'Amount', 'Date', and 'Action'. The table contains three rows of data.

Amount	Date	Action
1000.0	2026-01-01	Delete
230.0	2026-03-04	Delete
456.0	2026-03-21	Delete

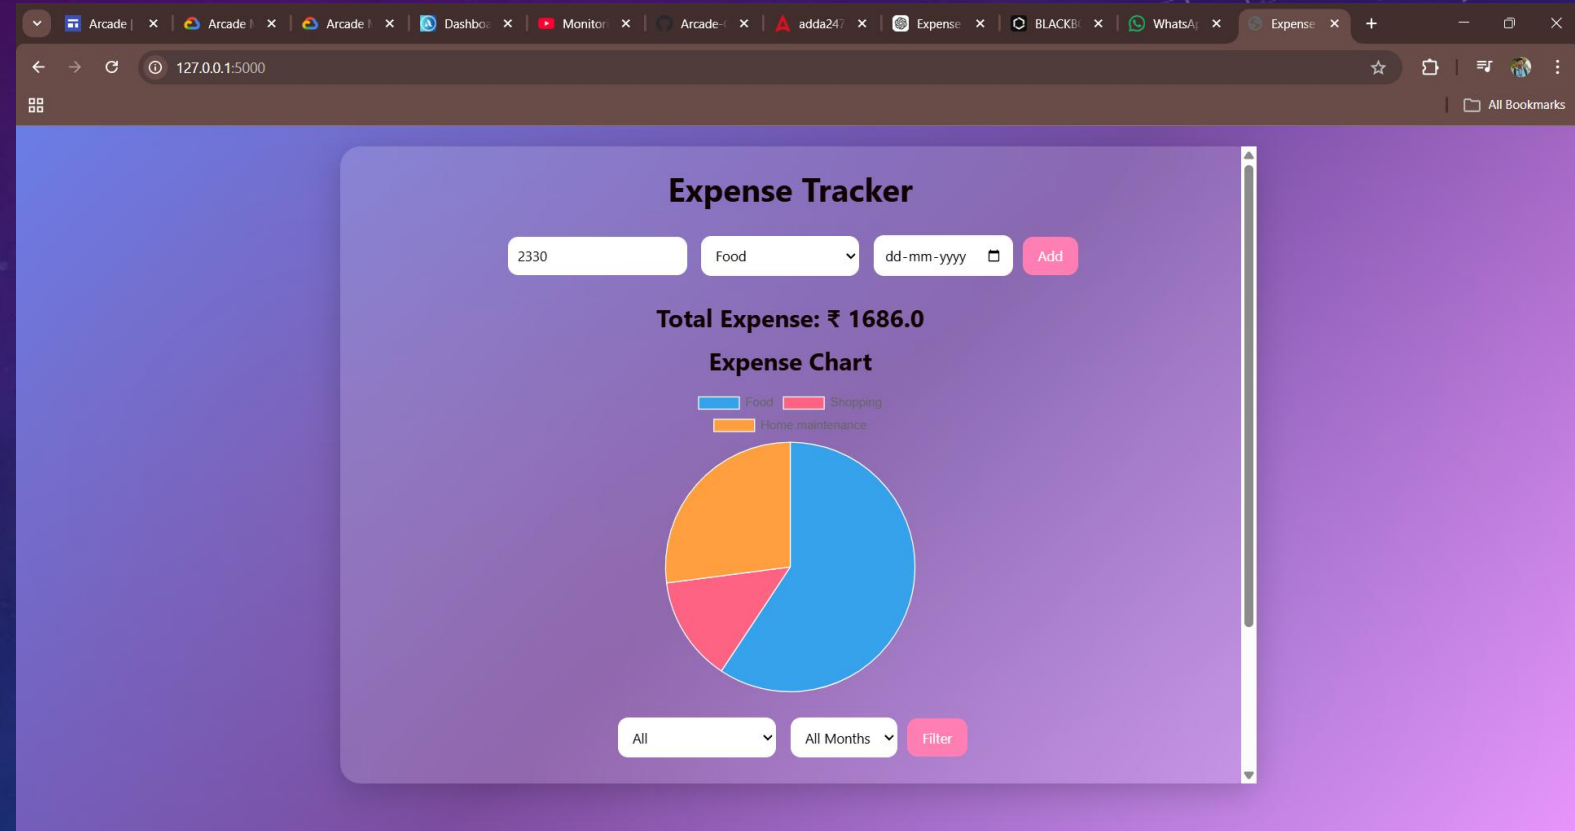

CHART VISUALIZATION

- Pie chart using Chart.js
- Shows category-wise expenses
- Easy to understand spending

UI DESIGN (CSS)

- Gradient background
- Modern look
- Responsive design

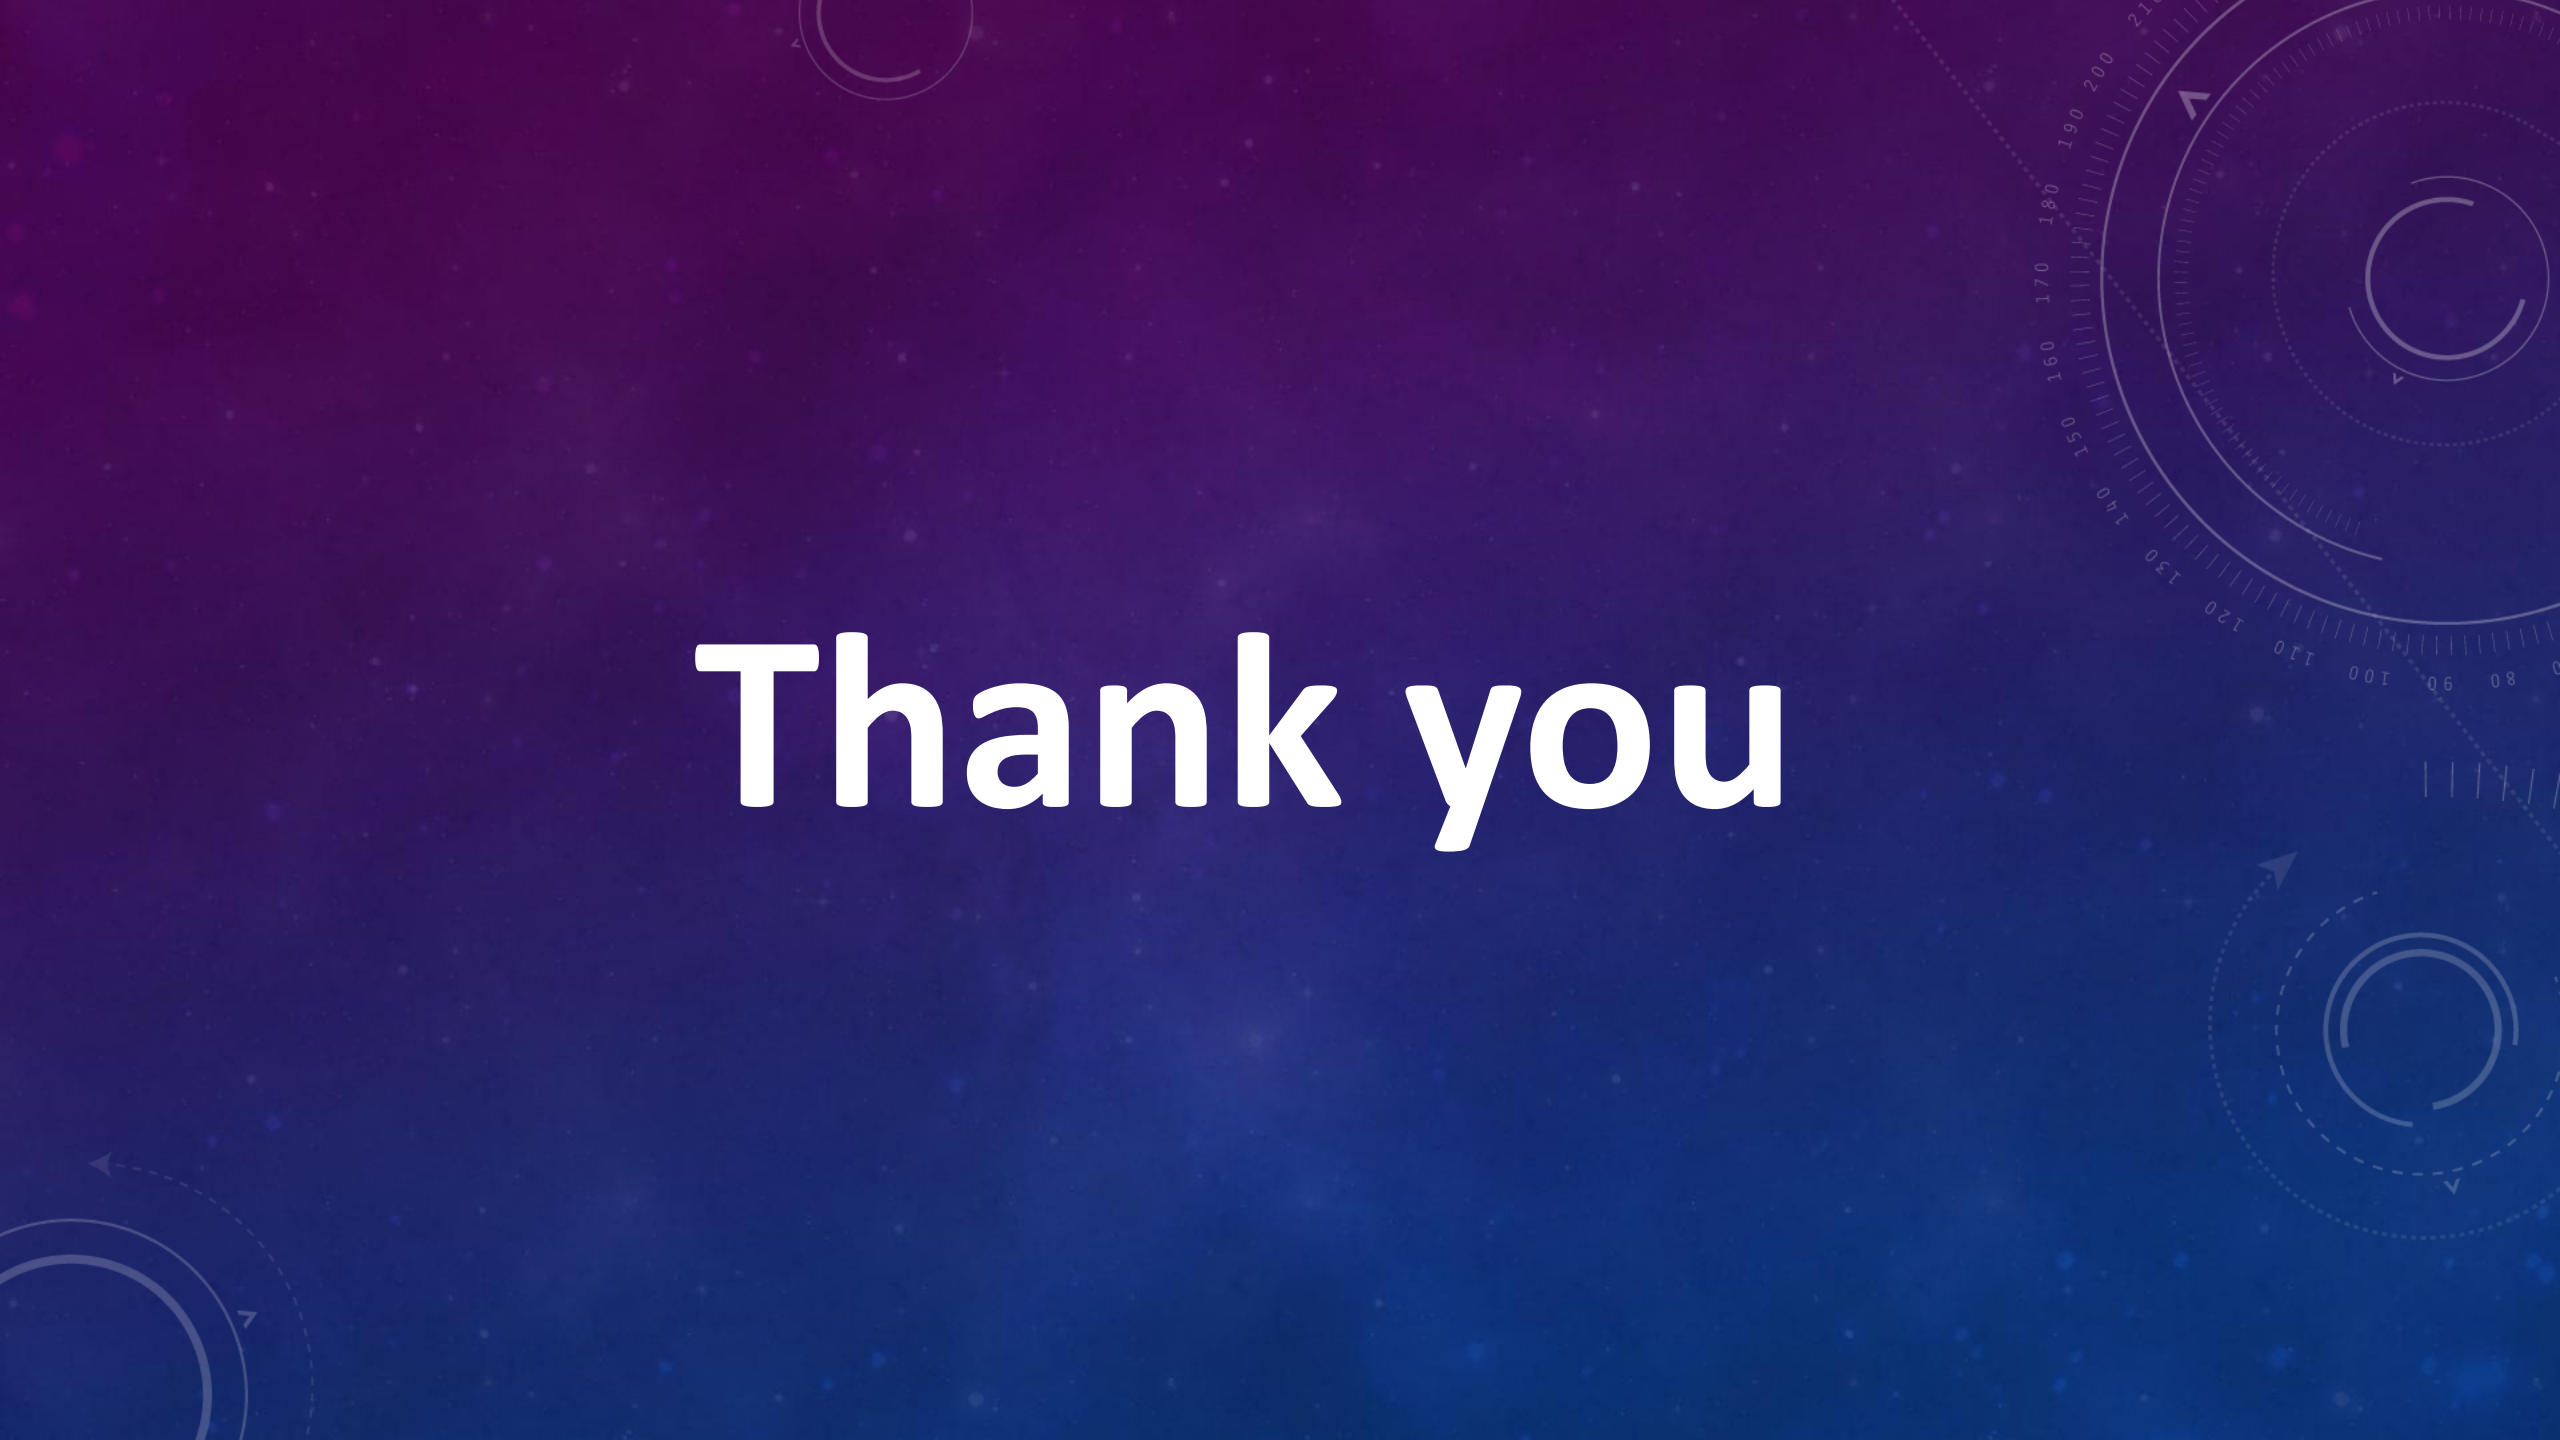

CONCLUSION & FUTURE SCOPE

Conclusion:

- Easy to use
- Helpful for daily tracking

Future Scope:

- Login system
- Database storage
- Mobile app version

Thank you
